August Meeting at LARCC Quarry Field

The Thursday August 11, 2011 meeting will be held at the Lodi Area Radio Control Club Quarry field.

For directions see LARCC's website at www.larcc.com/ or contact one of our officers. The meeting will start around 7:00 pm. Come early and get some flying in. If you haven't paid your 2011

dues yet we will be happy to accept them. Also consider rejoining the club or become a new member. Attendance has been very small at the last meetings so let's try to have a good turnout for this meeting. See you there.

July Minutes - By Richard Cohoon

The July meeting was held at the LARCC flying field. President Brad Witt called the meeting to order. There were four members present.

Secretary's Report: The minutes for the May meeting were published in the newsletter. **Treasurer's Report:** Le Roy gave a report.

Old Business: None. **New Business:** There was discussion about the membership being low and the continuation of the club charter. No actions were proposed or taken on the subject. **Show and Tell:** There were a number of flyers at the airfield. Most were LARCC members. Brad Witt showed plans he has for a Pietenpol. It looks like a big project Brad. Gary Gausmann brought his Etrich Taube. Very nice flyer.

Trez/Ed Sez - By Le Roy Stuczynski

Hi Eagles. I made it through another year volunteering at EAA Warbirds. I have 8 year's under my belt now and look forward to many more. I didn't do too much wandering around this year and consequently didn't take a lot of pictures. I did view the star attractions in flight though such as the Boeing 787 "Dreamliner", B-29 "Fifi", the Farmer's Insurance sponsored dirigible, the airshow tribute to Bob Hoover which included an aerobic routine by my friend Bob Odegaard in his Shrike Commander, all the daily airshows including Saturday's awesome night show concluding with a great fireworks display. On and on I could go but the greatest part of the time is the camaraderie and getting together with all my aviation loving friends I usually see only at EAA. Ford Motor Co. always brings in a big band for a free performance. This year it was REO Speedwagon and I am told it was the best one yet! Gary Sinise & the Lt. Dan Band did their usual concert at "Theater in the Woods." Sinise, who is best known for his role as Vietnam veteran Lt. Dan Taylor in the classic film "Forrest Gump". Another great act! Does all this excite you? If so try to make it to AirVenture 2012. Mark your calendars for July 23-29, 2012. There is never a dull moment and always a cold one of something available at our campsite.

Love them Warbirds.

LODI AREA RADIO CONTROL CLUB'S

19th Annual Model Aircraft FUN FLY

Spectators Welcome!

\$5 Pilot Fee, Spectators FREE!

This is an AMA sanctioned event. Proof of AMA Membership will be required for pilots to fly.

Bring the family and spend the day.

Food and soda available at the field

What will you see?

There will be flying demonstrations all day, including giant scale model aircraft with wingspans over 100-inches, biplanes, electric powered aircraft, single and twin engine aircraft, gliders and maybe even a helicopter or a jet. There will also be an airplane candy drop for the kids. Raffle at 2pm.

When:
 SEPTEMBER 11, 2011
 Starting at 9:00 AM

Where:
 Quarry Field
 Lodi Area Radio Control Club's Home Field
 See Map Below For Location

For more information
 Visit our website at:
www.larcc.com

We have a great raffle with flying and non-flying oriented prizes
 There will also be a pilots only raffle.

Address:
 N2234 COUNTY HWY J
 Lodi, Wisconsin 53555
GPS Coordinates:
 43° 21' 17" N
 89° 29' 55" W

Some other upcoming local events:

August 13, Ken Kindschi Scale Rally, Kettle Field, Madison, WI.
 September 10, 2nd Annual Big Birds Over EAA, Oshkosh, WI.

Model airplane legend Maynard Hill dies at 85

Maynard Hill, a pioneer in unmanned and model aircraft who sent an 11-pound airplane across the Atlantic in 2003, died June 7 at his home in Silver Spring, Md., *The Washington Post* has reported. He was 85. Hill, a member of the Academy of Model Aeronautics (AMA) Hall of Fame and former president of the academy, earned 25 world records for speed, distance, and altitude over a long career of modeling. He led a team that flew a balsa-wood model airplane carrying 5.5 pounds of Coleman lantern fuel from Newfoundland to Ireland, a distance of 1,882 statute miles, on Aug. 11, 2003. Hill was 77 at the time of the transatlantic flight, and legally blind. Yet he worked on model after model perfecting the design that eventually stayed aloft 38 hours, 52 minutes, and 14 seconds before landing within feet of its intended mark across the ocean. He dyed his glue red to better see it while working. Born during the Golden Age of aviation, Hill was inspired by famous aviators of his childhood. In an autobiography for AMA .“By age 9 I had acquired a fairly serious addiction to balsa wood and glue.”Hill added radio-control aeromodeling to his repertoire about a decade later, and eventually parlayed his hobby into research and development positions in the budding field of unmanned aircraft systems for the military. According to *The Washington Post*, Hill is survived by his wife of 59 years, Gay, as well as three children, a brother, a sister, and 10 grandchildren.
